classical dictionary biography mythology and geography based on the larger dictionaries by william smith the great progress which classical studies have made in europe and more especially in germany during the present century has superseded most of the works usually employed in the elucidation of the greek and roman writers it had long been felt by our best scholars and teachers that something better was required than we yet possessed in the english language for illustrating the antiquities literature mythology and geography of the ancient writers and for enabling a diligent student to read them in the most profitable manner it was with a view of supplying this acknowledged want that the series of classical dictionaries was undertaken and the very favourable manner in which these works have been received by the scholars and teachers of this country demands from the editor his most grateful acknowledgments the approbation with which he has been favoured has encouraged him to proceed in the design which he had formed from the beginning of preparing a series of works which might be useful not only to the scholar and the more advanced student but also to those who were entering on their classical studies the dictionaries of greek and roman antiquities of greek and roman biography and mythology and of greek and roman geography are intended to meet the wants of the more advanced scholar but these works are on too extended a scale and enter too much into details to be suitable for the use of junior students originally published in 1858 many of the earliest books particularly those dating back to 1900s and before are now extremely scarce and increasingly expensive we are now republishing these classic works in affordable high quality modern editions using the original text and artwork

the dictionary of classical mythology is a unique companion to the ancient greek and roman myths and legends
